Summary

A motivated and dedicated B.A. student with a strong foundation in computer basics, web development, and programming. Completed a 1-year Computer Basics Diploma and a 9-month training program in HTML, CSS, and Python at Ruhil Future Technologies. Currently working as an intern, gaining practical experience in software development and problem-solving. A quick learner with strong communication, teamwork, and analytical skills, eager to contribute to an organization's growth while continuously enhancing technical expertise.

Education

Bachelor of Arts

Government P.G. College for Women, Rohtak | 2024 - Present

Class XII

New Vidhya Bharti Public School, Rohtak | 2023 - 2024

Class X

New Vidhya Bharti Public School, Rohtak | 2021 - 2022

Work Experience

Portfolio Website Development (Hands-on Project)

- Designed and developed a responsive personal portfolio website using HTML, CSS, and Python.
- Built clean and user-friendly web pages with a focus on responsive design.
- Implemented navigation, project showcase, contact section, and modern UI components.
- Used Python for backend functionality and project execution where required.
- Tested and debugged the application to ensure smooth performance across devices and browsers.
- Applied best practices in web development, including organized code structure and reusable components.

GyanSetu - One World AI (Current)

- Working on the GyanSetu - One World AI project, contributing to AI knowledge management and implementation activities.
- Responsible for data seeding, including collecting, organizing, cleaning, and structuring data for AI systems.
- Assisting in the implementation of AI workflows and project features.
- Collaborating with the development team to ensure accurate data integration and smooth deployment of project modules.
- Performing data validation, quality checks, and documentation to improve AI model performance.
- Supporting testing, issue identification, and continuous improvement of the project.

AI Trainer (Ruhil Future Technologies)

- Delivered AI training sessions to students and professionals on Generative AI tools and real-world AI

applications.

- Designed and conducted hands-on workshops covering AI concepts, prompt engineering, and productivity tools.
- Trained participants on ChatGPT, Claude, Google Gemini, Microsoft Copilot, and other AI-powered tools.
- Guided learners in building AI-based projects, portfolios, and improving their digital skills.
- Mentored students by providing technical support, answering queries, and evaluating project progress.
- Developed strong communication, presentation, and technical training skills while working with diverse groups.
